

## Mass Flow Meter **FC50-CA**

heavy duty – compact – cost-effective – easy to handle – versatile

**Now also for mass flow/compressed air!**

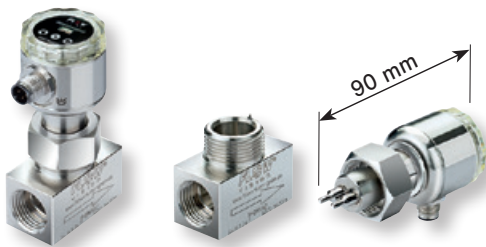

## Mass Flow Meter FC50-CA

4 ... 20 mA signal | switching output | pulse output

### heavy duty

stainless steel housing and sensors

### compact

a maximum of technology in a small housing

### cost-effective

highly economical due to state-of-the-art technology

### easy to handle

fast and incomplex installation, configuration and operation

### versatile

liquids and gases (1/2", 40") – one device family for nearly all applications, also available with ATEX approval
