

Energy management

Flow meters for technical gases

Compressed Air | Nitrogen | Oxygen | Argon | CO₂ | Methane | Hydrogen

Flow meters for technical gases

Your benefits:

1 Consumption measurement

Improved cost allocation

2 Leak detection

Loss minimisation through detection of minor leaks

3 Modularity

Flexible use of sensors

FVone-NP-CA

- Compact device
- 4...20 mA for flow
- Pulse output (counter)
- Configuration via USB with PC software
- Flexible use
- Also available with -approval

PERFLU 5-CA

- Separate control unit with display
- 4...20 mA for flow
- Pulse output (counter)
- Configuration via display or via USB with PC software
- Flexible use
- Also available with -approval
